## 1, PWL abstract

### 1.1, what is PWL?

Power Wealth Labs (PWL), the dispersed tokens of the block chain digital money field infrastructure and computing power assets. Through intelligent PWL mapping based on Ethernet token contract square ERC20 standard, realize the construction and operation of digital currency field large-scale infrastructure and technology control and asset management to the center, scattered the effective integration of Power Wealth Labs (PWL) is a field of infrastructure and a token force assets.

### 1.2. The market is now

With the globalization of knowledge dissemination chain blocks, BTC-coins and other digital currency prices continued to rise, as a block chain core infrastructure work proof POW mechanism, decentralized accounting books competition (called mining reward), to obtain economic returns increase continuously, the steady growth of the interests and promote the rapid growth of the mining mechanism.

AntPool BCH, BTC Earn Comparison

Competitive reward digital currency, mining income mainly

depends on the computer and the cost of electricity and other infrastructure competitive advantage. According to statistics, about 70% of the global miner's supply and computing power comes from China and Russia. In the world, a large scale of specialized miner production suppliers, mineral pools and power supply infrastructure have been formed, which tend to be intensive and highly monopolized.

The design of block chain decentralization and decentralization of block chain has been changed by monopolistic enterprises. Due to the limitation of expensive and complex professional equipment management and technical maintenance, ordinary personal nodes and computing power are losing the right of community participation. It is difficult to get the technological progress benefits of block chain through competition.

One side is the continuous and stable growth of digital currency competitive bookkeeping awards, on one side is a large-scale enterprise monopoly and equipment upgrading competition. How to break decentralized nodes to be highly monopolized and share technical dividends to the community?

### 1.3, goal and vision

**PWL tokens are mine infrastructure and power assets.**

By building intelligent contract token in Ethereum-ERC20 standard, PWL realizes the decentralization and decentralized community governance of construction, operation, digital money, large-scale infrastructure, technology control and asset management. Through the characteristics of the token flow, the intelligent contract framework is used to converge the block chain, the community millions of enthusiasts to build co governance and share, and promote the decentralization development of the block chain technology value and the community fans.

## 2, PWL core assets

### 2.1. Infrastructure and electricity supply

PWL procurement of environmental protection of the surplus low price of electricity, from Sichuan, Yunnan, Inner Mongolia, Russia east, Ukraine and other regions. Using the address of power suppliers and natural climate conditions, the infrastructure of large-scale mining machines, workshops, power supply and management are built. At present, the average purchase price of the selected regional power contract is 0.25–0.42 CNY/KWH, and the median average price is 0.36 CNY/KWH.

### 2.2, mine machine purchase and Trusteeship

PWL has entered into a preferential procurement agreement with the world's main mining suppliers. The latest BITMAIN-T9/S9, G2/L3 and other mine machines give priority to order supply and after sale technical support.

### 2.3, lease and transaction

After the completion of the acceptance of the PWL infrastructure, the B2C/C2C trading platform will be added. Service community users efficiently circulate tokens.

### 2.4, digital assets and management of mineral pool

The PWL project will build an integrated digital asset

management platform in the future, including digital wallet, digital assets, currency exchange, digital coin mortgage financing, accounting and leasing transactions, and fully support the PWL community asset appreciation.

### 3. The development route

#### 3.1, mine yard and power supply facilities

The completion and acceptance time of the first phase 5000KW workshop is completed in April 2018. The PWL project China team has entered into the local power supply contract, the price of hydropower purchase is 0.25–0.42 CNY/KWH, the intermediate price is 0.36 CNY/KWH, the first stage computer room is being designed and located.

#### 3.2. The mining machine is installed and worked

In May 2018, 2000 sets of T9/G2 are installed and worked.

#### 3.3. The trusteeship of the mining machine

In August 2018, 1000 trusteeship miners are planned to increase the power of 2000KW.

#### 3.4, power transaction

It is planned to supply the computing force and leasing trading platform in December 2018, and continuously increase the

functions of the digital currency exchange, mortgage financing and so on.

### 3.5. The two phase of the mine

It is planned to build the second phase of the mine in January 2019, and 3000 new mining machines are added.

### 3.6. The three phase of the mine

It is planned to build the third phase of the mine in July 2019, and 5000 new mining machines are added.

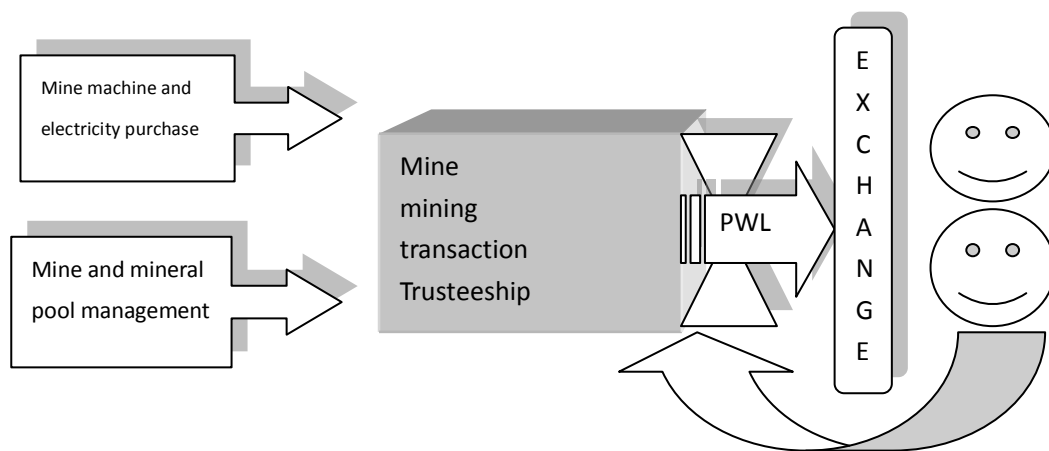

To achieve PWL target, 10 thousand private mining machines, and the size of 5000 trusteeship machines.

#### 4, profit model and financial audit

##### 4.1, profit model

The construction of private high ore mining, the force of competition to get reward block. In the installation and operation of mining facilities, the gradual development of ore hosting and lease transactions, build mine achieve the decentralized token shared governance. Through the rapid depreciation of the mining machine and the increase of the update frequency, the scale advantage is obtained in the global competition.

##### 4.2. Financial accounting

The sample is T9: the comprehensive purchase price of the mine is 25000 CNY per unit, the power consumption is about 1.45KW, the calculation power is about 10.5T, and the electricity price is 0.36 CNY/KWH. At present, the ant pool PPS excavates BTC, and the income is about 2.52 dollars /T/24H. About mine

facilities and technical management of the \$10 /T/ month.

Each T9 operation cost per month: power  $1.5 \times 0.36 \times 24 \times 30 = 388.8$  CNY, management fee 682.5 CNY, machine depreciation charge  $1/24 = 1041.7$  CNY, tax 80 CNY, total 2193 CNY.

Income:  $\text{BTC}2.52\text{USD} \times 6.5\text{CNY}/\text{USD} \times 10.5\text{T} \times 30\text{D} = 5159.7$  CNY.

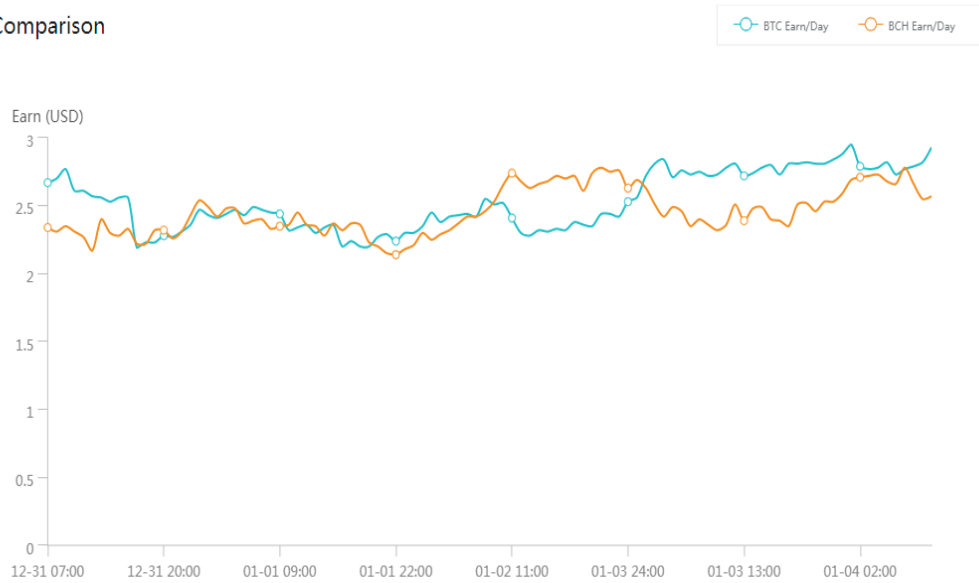

Profit:  $5159.7 - 2193 = 2966.7$  CNY

Monthly profit rate:  $2966.7/25000 = 11.8\%$  (annual interest rate 141.6%)

**Conclusion: the cost is recovered when the equipment is operated about ninth months.**

The calculation of the sample shows that the main factors affecting the financial profit are the purchasing price and depreciation rate of the mining machine, the cost of electricity purchasing, and the huge fluctuation of the price of the digital currency. The short-term profit calculation is obviously influenced by the fluctuation of the price of the digital currency. The choice of the suitable hedging strategy may reduce the impact of price fluctuation.

Earn Comparison

From <https://www.antpool.com/earnComparison.htm>. BTC/ETH and other digital assets mining equipment, testing the performance and the actual mining capacity will have a greater difference, different ore pool settlement patterns also have large differences in income. The data described above may be different from the actual capacity settlement model.

## 5, PWL project operation and risk management

### 5.1. Core infrastructure suppliers

BITMAINT9/S9, G2, L3 and so on

### 5.2, ant / Star pool operation support

### 5.3. Technical management consultant

### 5.4. Risk management

The risk of PWL project is mainly about the power supply and policy change, the loss of equipment and the increase of calculation power, the falling of digital coin trading price, the block chain technology and the global political innovation. At present, block chain technology is in the early stage of the world. Despite many unknown risks, the market prospects and trends are in line with the development of future science and technology. The PWL project team will continue to increase macro Prudential research and investment to enhance the ability to resist risk within the foreseeable risk range above.

## 6、PWL Foundation

### 6.1. Foundation register

The PWL Foundation is a non-profit organization registered in Cayman, U.K. (undecided) and is the manager of technology development, compliance operations, infrastructure and capital operations for PWL projects .

### 6.2, governance

The PWL foundation is the statutory manager of all assets of the project. It represents the right of the community to give priority to investors in the project, and all proceeds from the foundation will be used for community construction and maintenance.

### 6.3. Digital asset management

All the digital assets of the PWL project tokens and sales are all managed by the foundation. According to the progress of the project implementation and the market changes, the number of payments is adjusted, and the change of assets is regularly announced in the community.

## 7, The PWL-token

### 7.1, The PWL token

The PWL token is developed through the Ethereum intelligent contract, which is in line with the ERC20Token standard. Use the purse (mist, metaMask, Myetherwallet.com, Imtoken) and the authorized exchange management. The token holder is the PWL foundation, the founding technology development team, the private investor, and the open community user. As a voucher for mine calculation and trading, it obtains the rights and interests of the field calculation and participates in the voting of community governance.

### 7.2. The issuance of tokens

Total fixed amount: 500 million (500000000)

Code: PWL

Support Purses: Mist, Myetherwallt.com, MetaMask, Imtoken

Intelligent contract data query:

<https://etherscan.io/token/0xf5380a3b9e9396cd5c24fb36c2d9399a85154cb0>

<https://PWL.io>

Email:info@PWL.io

### 7.3. Distribution and use of tokens

The Foundation Limited 20% of the total amount of PWL tokens as a continuous reward for the operation of the founding technical management team. After the first phase of the white paper's planning and development line is connected to the network, it will release 10%. It will release 5% when the second phase of the field is connected to the network, and then release 5% when the third phase of the field is connected to the network.

60% of the total PWL tokens will be sold and circulated through the compliance private market by the foundation, which will be used for the construction of mining pool projects, including procurement infrastructure, technology development, legal compliance supervision and community long-term construction and operation.

10% of the total amount of the token is used by the foundation to deal with risk and market value management reserves.

5% of the total amount of the token is used for the compliance of legal affairs and the supervision of safe operation.

5% of the total amount of the token is used for the development of community users and the incentive of marketing.

#### 7.4. Sales management of tokens

The PWL foundation plans to sell a total of 60% total 300 million tokens and collect 50000ETH, 1ETH=6000PWL to compliance users. Only accept ETH to participate in the exchange, and send ETH automatic exchange PWL to the foundation account. There is no other designated agent and ICO sales (such as new agency sales agency, PWL official website will be officially announced)

Pre-Sales time (Singapore time): from 18 in January 18, 2018 to 18 in March 18, 2018. After 18 points on the end of the sale, PWL will be sent to the user's ETH account.

If the number of tokens is sold out in advance, the PWL will be sent on the next day. If the token is remainder, it will be administered to the foundation after its expiration.

The first stage: from 18 in January 18, 2018 to 18 in February 8th.

Exchange ratio 1ETH=6000PWL, reward token 5%, if greater than 100ETH, reward token 10%.

The second stage: from 18 points in February 8, 2018 to 18 in February 28, 2018, the exchange rate of 1ETH=6000PWL. The account is more than 100ETH, and the reward is 6%.

The third stage: from 18 points in February 18, 2018 to 18 in March 18, 2018, the exchange rate of 1ETH=6000PWL. There is no reward.

The PWL token is the main exchange on the line three months after the end of sales. The 20-40% of net income per quarter will buy back the token in the two level market, support the value-added of circulation and buy back the total amount of 300 million tokens. The other benefits of the project will continue to invest in mine infrastructure and digital assets.

8, PWL future

PWL tokens are mine infrastructure and power assets.

After the completion of the third phase of the PWL project, it is expected to reach the scale of 10 thousand private mines and 5 thousand hosting mines. In the future, we will develop the

digital asset exchange and the leasehold trading platform, the digital asset investment management terminal and so on to support the community development.

PWL, based on the intelligent contract framework, converged on the block chain community and the millions of enthusiasts to build joint governance and share revenue. The quarterly net income is 20-40% repo tokens, and PWL promotes the balanced development of block chain technology and community fans.

## 9. Risk hints

Today, with the popularity of digital assets, many digital mine projects continue to operate due to safety and regional policy problems, or huge amounts of digital assets are stolen. The PWL team attaches great importance to security compliance, but does not have any guarantee or commitment to complete safety. There are thousands of similar mine project team is planning to develop or have developed, the future will face the challenges and competition is fierce, the PWL team has made full preparations, but also face the failure of bankruptcy liquidation, your token assets may be partial or total loss. This white paper is only used to explain information about a plan to be implemented for the PWL mine project team, and it

does not constitute a proposal or invitation to buy or sell a token or any investment way. The above information or analysis does not have any implied or implied warranty, nor is it any form of contract or commitment. PWL tokens are not any valuable assets or securities, and do not represent any assets or interests or bonds. Any behavior and decision before and after the reader is not directly or indirectly related to the information of this document.

The readers of this article fully understand all the risks of the PWL field project on the token and the digital market, and take full responsibility for any possible consequences. PWL mine team are not due to the information network equipment maintenance, information network connection failure, computer, communication or other system failure, power failure, strike, labor disputes, violence, uprising, riots, lack of productivity or production of fire, flood, storm, explosion, war, government behavior, judicial and administrative organs of the command or third party as caused by the service or service cannot delay or any consequence. PWL mine team accepts any involvement of the PWL token caused by direct or indirect losses, including but not limited to the sale of tokens, comprehension errors, inaccurate information, transaction of digital assets

loss, key management, improper legal restriction rules of any consequence.

PWL supports the international anti money laundering and anti terrorist activities of capital rules, this project does not accept any American citizens and enterprises to participate, and to North Korea, Burma, Iraq, Afghanistan, Yemen, Nepal, Iran, Syria and other countries or regions of the legal restriction of citizens and businesses to participate in the. PWL does not accept any law restricted area citizens and enterprises to buy trading PWL tokens, and other countries or regions that do not expressly refuse. You need to confirm whether there is a legal limitation to lift and declare.

## 1、PWL 矿场简述

### 1.1、PWL 是什么？

Power Wealth Labs (PWL), 分散的代币化的区块链数字货币矿场基础设施和算力资产。

通过建立在以太坊 ERC20 标准的智能合约代币 PWL 映射，实现建设运营数字货币矿场大规模基础设施、技术控制和资产管理去中心化、分散式的高效集成，Power Wealth Labs (PWL) 代币即矿场基础设施和算力资产。

### 1.2、市场现在

随着区块链知识全球化普及和传播，比特币、以太坊、莱特币等数字货币的价格大幅轮番上涨，作为区块链核心基础设施的工作量证明 POW 机制，分散式账本竞争记账(称挖矿奖励)，获得的经济回报持续增加，稳定增长的利益促进了挖矿记账机制的高速发展。

蚁池BCH、BTC收益对比

数字货币的竞争式记账奖励，挖矿收益主要依靠计算机算力和电力成本等基础设施的竞争优势。据统计，全球矿机供应和算力的约70%来自中国和俄罗斯。全球范围内已经形成了大规模的专用矿机生产供应商、矿池和电力供应基础设施，并趋于集约化高度垄断。

图片来源于星火矿池 2018 年 1 月 2 日 ETH 总算力 15.9T/S 统计：

大矿工	当前在线: 12896
矿工	算力
0x2f3030464aa543eb2cd679381679ad825feeb222	230.93 GH/s

0x8f474bd316cb1abac7abdf14cd7918ee71249e7c	60.45 GH/s

初始的区块链分散化节点和去中心化的设计，已经被大规模的商业企业化挖矿改变，昂贵的复杂的专业设备管理和技术维护限制，普通的个人节点和算力正在失去区块链社区参与权，很难通过竞争式记账获得区块链发展的红利。

一面是数字货币竞争式记账奖励持续稳定增长，一面是大规模的企业化矿场垄断和设备升级竞赛。如何打破区块链分散式节点被高度垄断，分享技术红利到社区？

### 1.3、目标和愿景

Power Wealth Labs (PWL) 代币即矿场基础设施和算力资产。

Power Wealth Labs (PWL) 旨在通过建立在以太坊 ERC20 标准的智能合约代币映射，实现建设运营数字货币矿场大规模基础设施、技术控制和资产管理的去中心化、分散式的社区治理。通过代币轻松高效流动特征，以智能合约框架汇聚区块链社区千万爱好者力量共建共治共享，推动区块链技术价值和社区爱好者的分散化发展。

## 2、PWL 核心资产

### 2.1、基础设施和电力供应

PWL 采购中国云南四川内蒙和俄罗斯乌克兰等地区的环保富余低价电力，利用电力合约地址自然地理气候条件，建设满足大规模专用矿机并网运行的厂房矿机、电力供应和管理基础设施。目前目标地区电力合同平均采购价格每千瓦时 0.25-0.42 元人民币，中价位平均每千瓦时 0.36 元。

### 2.2、矿机购买和托管

PWL 已经与全球主要的矿机供应商达成优惠的采购协议，最新的比特大陆蚂蚁 T9/S9、L3，阿瓦隆、映泰 570D 等矿机设备优先获得订单供应和售后技术支持。

### 2.3、算力租赁和交易

在 PWL 项目基础设施完成验收投产后，将上线算力租赁交易的 B2C/C2C 平台，支持社区用户算力资产高效流通。

### 2.4、数字资产和矿池管理

PWL 项目未来将建设一体化的数字资产管理平台，包含数字钱包、数字资产币币交易所、数字币抵押融资、算力租赁交易等功能，全面支持矿池社区成员资产增值。

### 3、发展路线

#### 3.1、矿场机房和电力供应设施

PWL 计划 2018 年 4 月份一期 5000 千瓦厂房验收。PWL 项目中国团队已经获得本地电力供应合同，水电每千瓦时采购价格人民币 0.25-0.42 元，中价位 0.36 元每千瓦时，一期机房已经设计选址中。

#### 3.2、矿机采购上线

计划 2018 年 5 月 2000 台比特大陆蚂蚁矿机到户安装调试上线。

#### 3.3、矿机托管

计划 2018 年 8 月份接受 1000 台矿机托管，电力 2000 千瓦容量。

#### 3.4、算力交易

计划 2018 年 12 月上线算力租赁交易平台，逐步增加数字货币交易所，抵押融资等功能。

#### 3.5、矿场二期

计划 2019 年 1 月建设矿场二期，新增 3000 台矿机并网上线。

#### 3.6、矿场三期

计划 2019 年 7 月建设矿池三期，新增 5000 台矿机并网上线。

实现 PWL 矿池自营总装机 1 万台，托管矿机 5000 台的规模。

## 4、盈利模式和财务审计

### 4.1、盈利模式

建设自营高效矿机装机挖矿，通过算力竞争获得区块奖励。在基础挖矿设施上线运行后，逐步开发矿机托管和算力租赁交易，实现分散化的代币化的社区矿场共建共治共享。通过加速机器折旧增加设备更新频率，在全球算力竞争中获得规模优势。

### 4.2、财务核算

采样假设蚂蚁 T9 机：矿机综合安装价格每台 25000 元，功耗约 1.45KW，算力约 10.5T, 电力价格 0.36 元/KWH，当前蚁池 PPS 挖 BTC 收益约 2.52 美元/T/24H。矿场设施和技术管理费约 10 美元/T/月。

每台 T9 运营成本：电力  $1.5 \times 0.36 \times 24 \times 30 = 388.8$  元，管理费 682.5 元，机器折旧费  $1/24 = 1041.7$  元，税杂费 80 元，合计 2193 元。

收入：BTC 2.52 美元 \* 6.5 汇率 \* 10.5 算力 \* 30 天 = 5159.7 元。

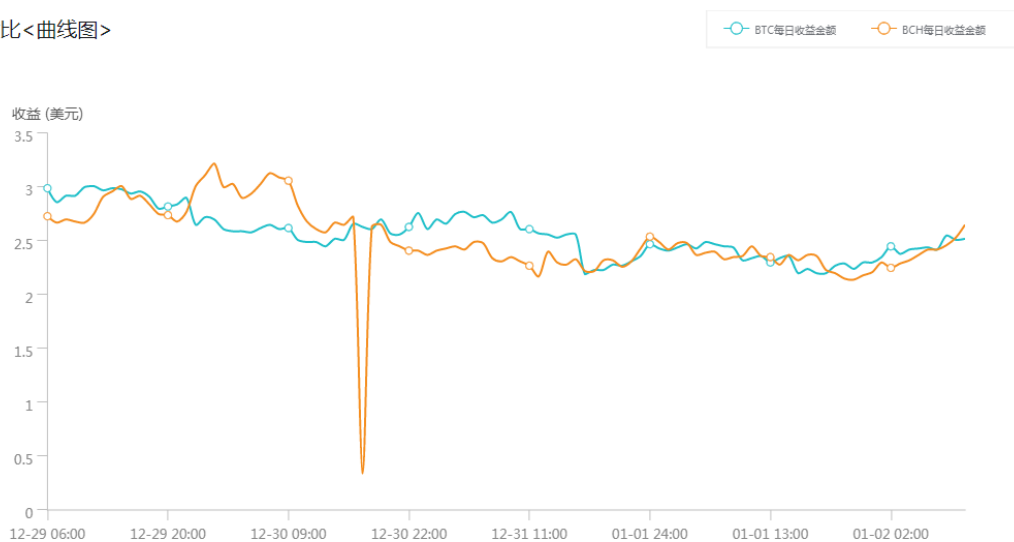

利润：5159.7 - 2193 = 2966.7 元。

月利润率约： $2966.7 / 25000 = 11.8\%$ （年化 141.6%）

设备上线约第 9 个月底回本。

财务核算说明：影响财务盈利的主要因素是矿机采购价格及折旧更新，电力采购成本，数字币价格短时受市场和政策的影响波动幅度巨大。短时利润计算受数字币价格波动影响明显，价格上涨利润增加，价格下降利润减少，适合的套保对冲策略可能减少价格波动影响。

收益对比<曲线图>

上图来源蚁池数据。比特币、莱特币、以太坊等主要的数字资产挖矿设备，测试性能与实际挖矿产能会有较大的差异，不同矿池的结算模式也会对收益产生较大的差异，上述文字图片表述采用的采样假设数据可能与实际产能或不同结算模式理解差异较大。

## 5、PWL 项目运营和风险管理

### 5.1、基础设施核心供应商

比特大陆 BITMAIN 蚂蚁 T9/S9, G2, L3 等

### 5.2、蚂蚁/星火矿池运营支持

### 5.3、算力巢技术管理顾问

### 5.4、风险管理

PWL 项目风险主要是电力供应及政策变化，矿机基础设备损耗和更新，数字货币交易价格大幅下跌波动，区块链技术和全球政治革新。

当前区块链技术在全球正处于初期阶段，尽管面对未知的许多风险，但市场前景和趋势符合未来科技的发展。PWL 项目团队在上述可预见的风险范围内将持续增加宏观审慎研究和投资，以增强抵御风险的能力。

## 6、PWL 基金会治理

### 6.1、基金会组织

PWL 基金会是独立注册于英属联邦开曼（待定）的非盈利法人组织，是 PWL 项目的技术开发、合规运营、基础设施和资本运营的法定管理人。

### 6.2、治理

PWL 基金会是项目全部资产的法定管理人，代表社区在项目中行使优先投资人权利，基金会管理的所有收益用于社区建设和维护。

### 6.3、数字资产管理

PWL 项目代币及销售募集的所有数字资产全部由基金会管理，依据项目实施进度和市场变化调整支付数量，定时在社区公布资产变化情况。

## 7、代币

### 7.1、代币 PWL Token

项目代币 PWL 通过以太坊智能合约开发,符合 ERC20Token 标准。支持主要的以太坊钱包 (mist、metaMask、Myetherwallet.com、Imtoken) 和授权交易所合约。代币由 PWL 项目基金会、创始和技术开发团队、私募机构投资人、公开社区用户持有。代币作为矿场算力和交易的凭证,获得矿场算力使用权益和参与社区治理投票。

### 7.2、代币发行

项目代币固定总量: 5 亿枚 (500,000,000)

代币代码: PWL

支持钱包 Mist, Myetherwallt.com, MetaMask, Imtoken

联系方式: [info@PWL.io](mailto:info@PWL.io)

### 7.3、代币分配和使用

PWL 代币总量的 20%基金会初始锁定,作为创始技术管理团队运营项目的持续奖励,在本白皮书规划发展路线的第一期矿场上线并网实现后释放 10%,在第二期矿场上线并网实现后释放 5%,在第三期矿场上线并网实现后释放 5%。

PWL 代币总量的 60%将由基金会通过合规私募市场销售和流通,

作为矿池项目建设采购基础设施、技术开发、法务合规监管和社区长期建设运营的支出。

代币总量的 10%用于基金会应对风险和市值管理储备。

代币总量的 5%用于法务合规和安全运营监管。

代币总量的 5%用于社区用户开发和市场推广奖励。

#### 7.4、代币销售管理

PWL 基金会计划销售总量 60%的代币共 3 亿，募集资金总量上限 50000ETH, 1ETH=6000PWL。首次登记机构销售仅接受以太坊 ETH 参与，通过接受 ETH 账户自动交换发币，暂没有其他任何指定代投或 ICO 销售方式（如新增代理销售机构官网将第一时间正式公布）。

预售时间（新加坡时间）2018 年 1 月 18 日 18 点至 2018 年 3 月 18 日 18 点结束，PWL 代币在结束日 18 点后按时间顺序发币到参与私募的以太坊 ETH 代币交换账户。

如果销售额度提前认购结束，则在认购结束后次日开始发币。如

果销售时间结束代币有剩余，则在销售结束后划归基金会管理。

第一阶段：2018年1月18日18点至2018年2月8日18点期间，交换比例1ETH=6000PWL，另奖励代币5%，单账户大于100ETH奖励代币10%。

第二阶段：2018年2月8日18点至2018年2月28日18点，交换比例1ETH=6000PWL。单账户大于100ETH奖励6%。

第三阶段：2018年2月28日18点至2018年3月18日18点，交换比例1ETH=6000PWL。

PWL 代币在销售结束后三个月内上线主要的交易所，每季度项目净收益的20-40%将在二级市场回购代币支持流通增值，回购至满3亿代币止，项目其他收益将持续投资矿场基础设施和数字资产。

## 8、愿景规划

PWL 代币即矿场基础设施和算力资产。

PWL 项目三期完成后预计将达到1万台自营矿机和5千台托管矿机规模，未来将上线自营数字资产代币交易所和算力租赁交易平台，数字资产投资管理终端等支持社区发展。

PWL 以智能合约框架汇聚区块链社区千万爱好者力量共建共治共享算力，项目每季度净收益20-40%回购代币，推动区块链技术和社区爱好者的平衡持续发展。

## 9、风险提示

在数字资产受到市场热捧的今天，许多数字矿场项目依然因为安全性和地区政策问题而停止运营，或发生巨额数字资产被盗等事件。PWL 团队非常重视安全合规，但并没有任何保证或承诺运营完全安全。相似矿场项目有数千个团队正在计划开发或已经开发，未来将面临惨烈的基础算力竞争和挑战，PWL 团队已经做出了充分的准备，但同样面临失败破产清算的可能，您的代币资产可能会全部或部分损失。

本白皮书仅用于阐述 PWL 矿场项目团队的一个待实施计划的信息，并不构成买卖项目代币或任何投资方式的建议或邀约。本文以上信息或分析没有任何明示或暗示的保证，也不是任何形式的合约或者承诺。PWL 代币不是任何有价资产或证券，不代表任何资产或权益或债券。阅读者之前和之后的任何行为和决定与本文档信息没有任何直接或间接的关联。

本文阅读者完全理解 PWL 矿场项目代币与数字市场的所有风险，并对可能出现的任何后果承担全部责任。PWL 矿场团队均不对由于信息网络设备维护，信息网络连接故障，电脑、通讯或其他系统的故障，电力故障，罢工，劳动争议，暴乱，起义，骚乱，生产力或生产资料不足，火灾，洪水，风暴，爆炸，战争，政府行为，司法行政机关的命令或第三方的不作为而造成的不能服务或延迟服务或任何后果承担责任。PWL 矿场团队均不对任何参与 PWL 代币造成的直接或间接利益损失，包括并不限于买卖代币、理解错误、不准确的信息、交易数字资产损失、密钥管理不当、法律限制规则等任何后果承担责任。

PWL 支持国际反洗钱和反恐怖资金活动规则，本项目不接受任何美国公民和企业参加，以及拒绝朝鲜、缅甸、伊拉克、阿富汗、也门、尼泊尔、伊朗、叙利亚等法律受限制的国家或地区公民和企业参加。PWL 不接受任何法律受限地区公民和企业买入交易 PWL 代币，其他未明示拒绝的国家或地区，您需要确认是否有法律限制解除并宣布。
